II. FISCAL YEAR AND ACCOUNTING CURRENCY**1. Fiscal year**

The fiscal year of the Company is from 1 January to 31 December annually.

2. Accounting currency unit

The accounting currency unit is Vietnam Dong (VND) because payments and receipts of the Company are primarily made in VND.

III. ACCOUNTING STANDARDS AND SYSTEM**1. Accounting system**

The Company applies the Vietnamese Accounting Standards, the Vietnamese Enterprise Accounting System, which were issued together with the Circular No. 200/2014/TT-BTC dated 22 December 2014, the Circular No. 53/2016/TT-BTC dated 21 March 2016 as well as other Circulars

guiding the implementation of the Vietnamese Accounting Standards of the Ministry of Finance in the preparation and presentation of Financial Statements.

2. Statement on the compliance with the Accounting Standards and System

The Board of Management ensures the compliance with all the requirements of the Vietnamese Accounting Standards, the Vietnamese Enterprise Accounting System, which were issued together with the Circular No. 200/2014/TT-BTC dated 22 December 2014, the Circular No. 53/2016/TT-BTC dated 21 March 2016 as well as other Circulars guiding the implementation of the Vietnamese Accounting Standards of the Ministry of Finance in the preparation and presentation of Financial Statements.

IV. ACCOUNTING POLICIES

1. Basis of preparation of the Financial Statements

All the Financial Statements are prepared on the accrual basis (except for the information related to cash flows).

The Financial Statements are prepared in Vietnamese and English, in which the Financial Statements in Vietnamese are the official statutory financial statements of the Company. The Financial Statements in English have been translated from the Vietnamese version. Should there be any conflict between the Vietnamese and English versions, the Vietnamese version shall take precedence.

2. Cash and cash equivalents

Cash includes cash on hand and demand deposits in banks. Cash equivalents are short-term investments of which the due dates do not exceed 3 months from the dates of the investments that are readily convertible into known amounts of cash and that are subject to an insignificant risk of change in value as of the balance sheet date.

3. Financial investments

Held-to-maturity investments

Investments are classified as held-to-maturity investments that the Company intends and is able to hold to maturity. Held-to-maturity investments only include term deposits in banks. Interest income from these term deposits in banks is recognized in the Income Statement on the accrual basis.

Loans

Loans are determined at original costs less allowance for doubtful debts. Allowance for doubtful debts of loans is made on the basis of estimated losses.

Investments in subsidiaries

Subsidiary is an entity that is controlled by the Company. Control is obtained when the Company achieves the ability to govern the financial and operating policies of an entity so as to obtain benefits from its activities

Initial recognition

Investments in subsidiaries are initially recognized at costs, including the cost of purchase or capital contributions plus other directly attributable transaction costs. If the Company contributes capital by non-monetary assets, costs of the investment are recognized at the fair value of the non-monetary assets at the time of occurrence.

Dividends and profits of the periods prior to the acquisition of investments are deducted from the cost of such investments. Dividends and profit of the periods after the acquisition of such investments are recorded in the Company's financial income. Particularly, stock dividends received are not recorded as an increase in value, but the increasing quantity of shares is followed up

Provisions for impairment of investments in subsidiaries

Provisions for impairment of investments in subsidiaries are made when the subsidiaries suffer from losses, with the provision amount determined by the difference between owners' actual contributed capital and total owners' equity as of the balance sheet date multiplied (x) by the Company's rate of charter capital owning in the subsidiaries. If the subsidiaries are parent companies and have their own Consolidated Financial Statements, provisions for impairment loss will be made based on their Consolidated Financial Statements.

Increases/ (decreases) in the provisions for impairment of investments in subsidiaries to be recognized as of the balance sheet date are recorded into "Financial expenses".

4. Receivables

Receivables are recognized at the carrying amounts less allowances for doubtful debts.

The classification of receivables as trade receivables and other receivables is made according to the following principles:

- Trade receivables reflect receivables concerning the commercial nature arising from purchase and sale transactions between the Company and customers who are independent to the Company.
- Other receivables reflect receivables not concerning the commercial nature and irrelevant to purchase and sale transactions.

Allowance is made for each doubtful debt after being offset against liabilities (if any). The allowance rate is based on the estimated loss.

Increases/ (decreases) in the allowance for doubtful debts to be recognized as of the balance sheet date are recorded into "General and administration expenses".

5. Inventories

Inventories are recognized at the lower of cost and net realizable value.

Costs of inventories are determined as follows:

- For materials and merchandise: Costs comprise costs of purchases and other directly attributable costs incurred in bringing the inventories to their present location and conditions.
- Work in progress ("WIP") of each construction work is determined as follows:

$$\text{Ending balance of WIP} = \text{Beginning balance of WIP} + \text{Costs incurred during the period} - \text{Costs of sales recognized during the period (*)}$$

(*) Costs of sales recognized during the period is determined as follows:

$$\text{Costs of sales recognized during the period} = \frac{\text{Beginning balance of WIP} + \text{Costs incurred during the period}}{\text{Value of construction work in progress at the beginning of the period} + \text{Value of construction work performed during the period}} \times \text{Revenue recognized during the period}$$

The cost of inventories is determined using the weighted average method and recorded in accordance with the perpetual inventory system.

Net realizable value is the estimated selling price of inventories in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Allowance for inventories is recognized for each type of inventories when their costs are higher than their net realizable value. Increases/ (decreases) in the allowance for inventories to be recognized as of the balance sheet date are recorded into "Costs of sales".

6. Prepaid expenses

Prepaid expenses comprise actual expenses arising and relevant to financial performance in several accounting periods. These prepaid expenses are allocated to the prepayment term or term in which corresponding economic benefit is derived from these expenses.

Tools

Expenses for tools in use are allocated to expenses in accordance with the straight-line method for the maximum period of 36 months.

Other prepaid expenses

Other prepaid expenses are allocated to expenses over their useful lives.

7. Operating leased assets

A lease is classified as an operating lease if significant risks and rewards associated with the ownership belong to the lessor. The lease expenses are allocated to operating costs using the straight-line method over the lease term and in regardless of the method of lease payment.

8. Tangible fixed assets

Tangible fixed assets are determined by their historical costs less accumulated depreciation. Historical costs of tangible fixed assets include all the expenses paid by the Company to bring the asset to its working condition for its intended use. Other expenses arising subsequent to initial recognition are included into historical costs of fixed assets only if it can be clearly demonstrated that the expenditure has resulted in future economic benefits expected to be obtained from the use of these assets. Those which do not meet the above conditions will be recorded into operation costs during the year.

When a tangible fixed asset is sold or disposed, its historical cost and accumulated depreciation are written off, then any gain or loss arising from such disposal is included in the income or the expenses during the year.

Tangible fixed assets are depreciated in accordance with the straight-line method over their estimated useful lives. The depreciation years applied are as follows:

<u>Class of fixed assets</u>	<u>Years</u>
Machinery and equipment	4 – 8
Vehicles	6 – 10
Office equipment	3

For used assets, the depreciation period is calculated based on their estimated remaining useful lives.

9. Intangible fixed assets

Intangible fixed assets are determined by their initial costs less accumulated amortization.

Initial costs of intangible fixed assets include all the costs paid by the Company to bring the asset to its working condition for its intended use. Other costs relevant to intangible fixed assets arising subsequent to initial recognition are included into operation costs during the period only if these costs are associated with a specific intangible fixed asset and result in future economic benefits expected to be obtained from the use of these assets.

When an intangible fixed asset is sold or disposed, its initial costs and accumulated amortization are written off, then any gain or loss arising from such disposal is included in the income or the expenses during the year.

Intangible fixed assets of the Company include:

Computer software

Purchase price of computer software, which is not a part associated with the relevant hardware, will be capitalized. Costs of computer software include all the expenses paid by the Company

FINANCIAL STATEMENTS

For the fourth quarter of the fiscal year ended December 31st, 2025

until the date the software is put into use. Computer software is amortized in accordance with the straight-line method in 3 years.

Brand, trademark

Historical costs of brand, trademark include the purchasing price, purchasing tax not refunded and registration expenses. Brand, trademark is depreciated in accordance with the straight-line method in 10 years.

10. Payables and accrued expenses

Payables and accrued expenses are recorded based on the amounts payable for goods and services already used. Accrued expenses are recorded based on reasonable estimates for the amounts payable.

The classification of payables as trade payables, accrued expenses and other payables is made on the basis of following principles:

- Trade payables reflect payables of commercial nature arising from the purchase of goods, services, or assets and the seller is an independent entity with the Company.
- Accrued expenses reflect expenses for goods, services received from suppliers or supplied to customers but have not been paid, invoiced or lack of accounting records and supporting documents; pay on leave payable to employees; and accrual of operation expenses.
- Other payables reflect payables of non-commercial nature and irrelevant to purchase, sales of goods or provisions of services.

Payables and accrued expenses are classified into short-term and long-term ones on the Balance Sheet based on the remaining terms as of the balance sheet date.

11. Owner's equity***Capital***

Capital is recorded according to the actual amounts invested by the shareholders.

Share premiums

Share premiums are recorded in accordance with the difference between the issuance price and face value upon the IPO, additional issue or the difference between the re-issuance price and carrying value of treasury shares and the equity component of convertible bonds upon maturity date. Expenses directly related to the additional issue of shares and the re-issuance of treasury shares are recorded as a decrease in share premiums.

12. Profit distribution

Profit after tax is distributed to the shareholders after appropriation for funds under the Charter of the Company as well as legal regulations and approved by the General Meeting of Shareholders.

The distribution of profits to the shareholders is made with consideration toward non-cash items in the retained earnings that may affect cash flows and payment of dividends such as profit due to revaluation of assets contributed as investment capital, profit due to revaluation of monetary items, financial instruments and other non-cash items.

Dividends are recorded as payables upon approval of the General Meeting of Shareholders.

13. Recognition of sales and income***Interest***

Interest is recorded, based on the term and the actual interest rate applied in each particular period.

Dividends and profit shared

Dividends and profit shared are recognized when the Company has the right to receive dividends or profit from the capital contribution. Particularly, the dividends paid in form of shares are not recorded as an increase in value, but the increasing quantity is followed up.

14. Construction contracts

A construction contract is a contract agreement for construction of an asset or a combination of assets which are closely related or depend on each other in terms of their design, technology, function or purpose of use.

When the outcome of the construction contracts is estimated reliably:

- For the construction contracts stipulating that the contractors are paid according to the planned progress, revenue and costs related to these contracts are recognized in proportion to the stage of completion of contract activity as determined by the Company itself.
- For the construction contracts stipulating that the contractors are paid according to the work actually performed, revenue and costs related to these contracts are recognized in proportion to the stage of completion of contract activity as confirmed in the invoices made by the customers.

Increases/(decreases) in revenue of the works done, compensation receivable and other receivables are only recognized upon the agreement with customers.

The difference between the accumulated revenue from the construction contract already recognized and the accumulated amount in the invoices according to the planned progress of contract is recognized as an amount receivable or an amount payable according to the planned progress of implementation of the construction contracts.

15. Borrowing costs

Borrowing costs are interests and other costs that the Company directly incurs in connection with the borrowing. Borrowing costs are recorded as an expense when it is incurred.

16. Expenses

Expenses are those that result in outflows of the Company's economic benefits and are recorded at the time of transactions or when incurrence of the transaction is reliable regardless of whether payment for expenses is made or not.

Expenses and their corresponding revenues are simultaneously recognized in accordance with matching principle. In the event that matching principle conflicts with prudence principle, expenses are recognized based on the nature and regulations of accounting standards in order to guarantee that transactions can be fairly and truly reflected.

17. Corporate income tax

Corporate income tax only includes current income tax which is the tax amount computed based on the taxable income. Taxable income is different from accounting profit due to the adjustments of temporary differences between tax and accounting figures, non-deductible expenses as well as those of non-taxable income and losses brought forward.

18. Related parties

A party is considered a related party of the Company in case that party is able to control the Company or to cause material effects on the financial decisions as well as the operations of the Company. A party is also considered a related party of the Company in case that party is under the same control or is subject to the same material effects.

Considering the relationship of related parties, the nature of relationship is focused more than its legal form.

19. Segment reporting

A business segment is a distinguishable component of the Company that is engaged in manufacturing or providing products or services and that is subject to risks and returns that are different from those of other business segments.

A geographical segment is a distinguishable component of the Company that is engaged in manufacturing or providing products or services within a particular economic environment and that is subject to risks and returns that are different from those of components operating in other economic environments.

The segment information is prepared and presented in conformity with the accounting policy applied for the preparation and presentation of the Company's Financial Statements.
